

Ziyad Alruwaished

Software Engineer, Full Stack Developer

✉ zeadalrouasheed@gmail.com ☎ 0506054839 🌐 ziyad alruwaished 🔄 ziyadRW 🔗 My Portfolio

Profile

Highly motivated Software Engineer with a passion for coding and problem-solving. As a full stack developer, I have applied my knowledge in several projects, demonstrating my ability to work with both front-end and back-end technologies. I am always eager to learn and contribute to innovative projects, leveraging my skills and expertise to deliver high-quality software solutions.

Education

Bachelor's degree in Software Engineering, King Saud University

2021 – 2025

Demonstrating a **4.8 GPA**, I have a deep understanding of computer science fundamentals and specialize in the software development life cycle, ensuring effective process management from inception to deployment.

Professional Experience

Web Developer, Sani

Dec 2022 – May 2023

I specialized in creating custom websites for nonprofits. Working with a dedicated team, we boosted their online presence and effectively supported their missions.

Forward Program, McKinsey & Company

Jun 2023 – Dec 2023

During my 6-month McKinsey internship, I enhanced my communication, teamwork, and problem-solving skills through projects and mentorship.

Volunteering

Leader of the Technical Committee, SSC Students Club

2022 – present

I led initiatives to offer valuable courses and workshops to students, including **developing the club's website** as a resource hub.

Projects

AI Text Summarizer [🔗](#)
